Kenji Sugibayashi, Ph. D.

President

Josai International University

12th of September, 2022.

Dear President Kenji Sugibayashi, Ph. D.,

I have learnt with great pleasure that you celebrate the 30th anniversary of the Josai International University.

Please accept my sincere congratulations on the occasion.

Working in close cooperation with Josai International University is essential for ELTE, especially for the Department of Japanese Studies and it is reassuring to see the fruitful partnership where the mobility of students between our universities create an environment where students can experience being part of not only local but international communities.

In the past 30 years Josai International University has expanded intensely and it is inspiring how continuously develops and became one of Japan's leading universities. Congratulations for the latest investments this year: on relocation of faculties and opening a new building; and for the plans of establishing new area of graduate school.

Let me congratulate again and I wish you many more successful years!

Yours sincerely,

Prof. Dr. László Borhy

Rector

Eötvös Loránd University
