Dear *President Prof. Dr. Kenji Sugibayashi*,

On behalf of the entire academic community of Mykolas Romeris University, kindly let me thank you for sending us the newest information about changes at Josai International University. We are very grateful for being the partner of Josai International University and we hope to extend our cooperation by all means.

Let me take the opportunity to congratulate on becoming one of Japan's leading international comprehensive universities. We are very happy and proud of relocating the Faculty of Tourism to the Chiba Togane Campus, with opening the new building at the Tokyo Kioicho Campus and also, we are impressed about the idea of establishing graduate schools in nursing and physical therapy. It is our pleasure to be one of the main partners in Europe with such a strong and committed to education partner in Japan.

We wish for every member of Josai International University to bring their full share of passion, joy, curiosity, and intellectual stamina into the research for the new scientific insights. Please deliver our best wishes for the future success on this wonderful new establishment to all academic and administrative members.

Sincerely Yours,

Prof. Dr. Inga Žalėnienė  
Rector
