

How to make school fees payment from overseas

【International payments platform (Recommended)】

To make a payment you can use an international payments platform “Global Pay for Students” which is our preferred method for international payments. This service allows you to pay in your local currency via bank transfer, or by using a wide range of local online payment options without incurring any transaction charges.

Click the website below and follow the procedure.

The following image is the first step. Select the country and fill in tuition (total amount of payment). And after that, follow the steps to choose a way to pay and fill in the required information.

The screenshot shows the Convera website interface for paying student fees. The main heading is "PAY STUDENT FEES WITH YOUR HOME CURRENCY". The form includes a dropdown menu for "Paying fees from" with a callout "Select the country". Below it is a "Tuition" field with a currency selector set to "JPY" and a callout "Enter the total amount (in Japanese yen) written on the invoice." A "Get a quote" button is present. The Josai International University logo and name are displayed in the center. Callouts also point to "Contact information" and "language settings" in the top navigation area.

If you are unable to use "Global Pay for Students", please make an overseas remittance to the bank account below.
